

TECH NOTE SERIES

# AQUASPREAD<sup>®</sup>

## SUPER SPREADER

## REDUCE water - IMPROVE efficacy

✓ **SUPER SPREADER**    ✓ **DEPOSITION AGENT**

**AQUASPREAD is a unique non-ionic Surfactant and a Siloxane Polyalkyleneoxide Copolymer blend that provides superior coverage at reduced water rates per hectare.**

**AQUASPREAD provides at least 5 to 10 times the spread and coverage of standard non-ionic adjuvants.**

### WHEN ADDED TO THE SPRAY TANK, AQUASPREAD WILL PROVIDE:

- Improved coverage of the crop, including hard to wet foliage and cereal ears, brassica and legume crops.
- Enhanced deposition and retention of chemical on the plant = better results.
- Enhanced potential disease and pest control due to better coverage.
- More hectares with one fill for significant time and cost savings.
- Excellent Crop Safety and minimal impact on beneficial insects including Bees.
- By adding AQUASPREAD to the spray tank, water rates can be very effectively reduced whilst increasing product performance e.g. 200-250Ltr down to 50Ltr/ha for cereal, grass and clover crops.

For taller crops including certain mature Brassicas, Brassica seed crops and some legumes 100Ltr/ha may be required.

**RECOMMENDED FOR: Improved coverage of Fungicides, Insecticides, Contact herbicides, Foliar Nutrients in less water on a wide range of arable and horticultural crops.**

- ✓ **All Low Volume Spraying including Aerial**
- ✓ **Brassica Sprays**
- ✓ **Cereal Ear Sprays**
- ✓ **Pasture Spraying**
- ✓ **Contact Herbicides**
- ✓ **Horticulture Spraying**
