

# OceanFert®

Granular Seaweed Fertiliser

Perfect for planting and adding nutrients to your veggie garden or pods with complete safety for young seedlings and new root growth.

- High in Organic matter
- Vegan
- Promotes greater root development
- Slow release
- BioGro certified
- Increased crop size and yield

OceanFert® is derived from fresh *Ascophyllum nodosum* seaweed species, sustainably harvested. It is a natural storehouse of major and minor nutrients, carbohydrates, amino acids and natural plant growth promotants including cytokinins, gibberellins and auxins.
