100  
litres**

GSKD291/F1

# KNOCKDOWN® 1 Litre

**ACTIVE INGREDIENT:** Contains 360g/litre glyphosate as the isopropylamine salt in the form of a soluble concentrate.

**PRECAUTIONS:** Keep out of reach of children. Store in original container, tightly closed, away from foodstuffs. Avoid contact with skin and inhalation of spray mist. Wash hands and exposed skin after using and before meals. Dispose of empty container safely. Avoid contamination of any water supply with chemical or empty container. Do not apply this product on crops that will be consumed as food by humans or animals. Do not direct this spray at any person or animal.

**FIRST AID:** If swallowed DO NOT induce vomiting. Give plenty of water. If in contact with skin wash thoroughly with soap and water. If splashed in eyes flush immediately with running water.

**GENERAL INFORMATION:** Knockdown controls a wide range of grass and broadleaf weeds including couch, kikuyu, paspalum, thistles and most oxalis species. It works by moving through the plant and into the root system killing the entire plant. Brown-off may take 7-14 days after application, depending on growing conditions.

Knockdown leaves no soil residue so treated areas may be sown immediately after weeds have died. Knockdown has no soil activity and can be used for spot treatment of weeds in rockeries, paths, garden beds, lawns and around buildings. Improved results when used with **Grosafe® Force Penetrant**.

**DIRECTIONS:** Use 10ml per litre of water. Spray all leaves until just wet. For best results apply Knockdown to healthy, actively growing plants. If rainfall occurs up to 6 hours after spraying a repeat application may be required. Do not remove weeds for 7 days after treatment to allow time for Knockdown to circulate through the root system. Avoid contact with desirable plants; if accidentally sprayed, hose off immediately with plenty of water to reduce plant damage. Do not spray when windy. **Shelflife:** When stored appropriately this product should show no significant degradation for 2 years from date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

**EMERGENCY RESPONSE: 0800 CHEMCALL (0800 243 622)**

Hazard Classification: 6.3B, 6.4A, 9.1B.

Approved pursuant to the HSN0 Act 1996.

Approval No. HSR101010.
