Organic Root-Gro® - 200ml

FEATURES: Organic Root-Gro® is an easy to use liquid that feeds beneficial soil microbes and mycorrhiza fungi that activate root function and revitalise and improve soil activity leading to enhanced uptake of nutrients and moisture. It can be applied individually or with any bio stimulants or herbicides.

BENEFITS: Organic Root-Gro® is loaded with naturally produced plant hormones that are safe and effective at stimulating the beneficial mycorrhiza fungi in the soil that break down nutrients in the soil making the fertilizer you apply available to your plants.

INGREDIENTS: A blend of 100% root exudates naturally derived from plants.

DIRECTIONS FOR USE: Soil drench with watering can or foliar/soil spray with sprayer. It is recommended that Organic Root-Gro® is either soil incorporated or watered into root zone of the treated area.

CROP	RATE	TIME OF APPLICATION
Pipfruit & Stonefruit	5ml/litre	Late winter dormancy, bud burst and green tip (Sept), thereafter treat at 3-4 weekly intervals until harvest.
Citrus	5ml/litre	Late winter dormancy and at 3-4 weekly intervals until harvest.
Grapes & Berryfruit	5ml/litre	Late winter dormancy, bud burst and at 3-4 weekly intervals until harvest.
Vegetables	Soil drench: 1ml/litre per sq metre Foliar/soil spray: 5ml/litre	Soil can be drenched immediately pre plant, thereafter treat at 3-4 weekly intervals until harvest.
Roses & Ornamentals	5ml/litre	Late winter dormancy, bud burst right through the growing season at 3-4 weekly intervals.
Lawn/Turf	1ml/litre per sq metre	At sowing and during spring to late summer at 3-4 weekly intervals.

Withholding period: Nil

COMPATABILITY: Organic Root-Gro® can be mixed with Grosafe BioPower® Seaweed Flake to further enhance plant vigour and health. It can also be used with any of the Grosafe® herbicide range to feed the soil while the herbicides control the weed. **STORAGE & HANDLING:** This product contains natural preservatives but should be stored away from intense heat and sunlight.
