Lawn Guard 200ml

ACTIVE INGREDIENT: contains 100g/litre 2-4D plus 50g/litre dicamba, both as amine salts in the form of soluble concentrate.

APPLICATION AND DIRECTIONS FOR USE:

Apply overall or spot application using a sprayer or fine rose watering can. Agitate thoroughly while filling. When weeds are not actively growing, effects may not become noticeable until 3-4 weeks after application.

Lawns: Use to control broadleaf weeds, Onehunga weed and clovers in lawns established for 3-4months or more. Apply to actively growing weeds in spring or autumn. Use 80ml in 10 litres of water and spray onto 100m² of lawn. Keep children, pets, wildlife and birds off treated lawns until the spray is dry.

Hard to kill Broadleaf Weeds: Includes convolvulus, docks, sorrel, cape ivy, thistles and buttercups. Apply to actively growing weeds in full leaf. Use 120ml in 5 litres of water. Grosafe Lawn Guard does not control grass weeds.

Woody Scrub Weeds: Includes inkweeds, lupin, fennel and broom. Spray when growth is active from November until March. Use 120ml in 5 litres of water. Add Grosafe EcoSpread® for improved wetting.

Trees and Tree Stumps: To control willows, poplars, privets and other trees which resprout from stump. Mix 1 part Grosafe Lawn Guard with five parts water and paint liberally onto freshly cut stumps, or cut a frill around the base of the stump and paint exposed surface. It is important to treat around each stem or stump.

WARNING READ LABEL BEFORE USE KEEP OUT OF REACH OF CHILDREN

HAZARD CLASSIFICATIONS:

Acute oral toxicity, Category 4; Eye irritation, Category 2;
Specific target organ toxicity (repeated exposure), Category 2;
Hazardous to the aquatic environment acute & chronic, Category 1;
Hazardous to soil organisms, terrestrial vertebrates and terrestrial invertebrates

Batch code:

Date of Manufacture:

GS LG338/B03

WARNING: Harmful if swallowed. Causes serious eye irritation. May cause damage to organs through prolonged or repeated exposure.

ECOTOXIC: Very toxic to aquatic life with long lasting effects. Harmful to the soil environment. Harmful to terrestrial vertebrates and invertebrates. Avoid release to the environment.

PERSONAL PROTECTION: Do not breathe mist or spray. Wash hands, face and all exposed skin thoroughly after handling. Do not eat, drink or smoke when using. Wear protective clothing, gloves, eye/face protection and suitable respirator when mixing or using.

STORAGE: Store in original container, tightly closed, in a locked, cool, dry place, away from children and foodstuffs. When stored appropriately this product should show no significant degradation for two years from date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

SPILLS: When dealing with spills wear personal protection. Contain and absorb with inert absorbent material then collect into container for disposal.

PRODUCT DISPOSAL: If possible dispose of by using according to the label, otherwise dispose of in an approved landfill.

CONTAINER DISPOSAL: Triple rinse and add to the spray tank. Dispose of rinsed container in rubbish collection. Do not use for any other purpose.

SAFETY DATA SHEET: A safety data sheet is available from Grosafe Chemicals Ltd.

FIRST AID:

If exposed or feel unwell, call a doctor or the National Poisons Centre (0800 764 766). Have product label or container at hand. **IF SWALLOWED:** Immediately call a POISON CENTRE or doctor. Rinse mouth. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice

EMERGENCY RESPONSE 0800 CHEMCALL: (0800 243 622)

GENERAL INSTRUCTIONS:

NOTE: Some burning may occur with young and fine turf grasses. Best practice is to wait 3-4 months before spraying newly established grass and a patch test is recommended. Do not use lawn clippings for compost or mulch until 3 cuttings after treatment. After application, clean equipment thoroughly. It is advisable to use a separate sprayer for fungicides and insecticides.

Apply this product carefully. Spray drift may cause serious damage to other desirable plants. Do not apply on or around food or animal feed crops. Do not plant shrubs or plants until 6 months following Lawn Guard treatment. Toxic to bees. Spray must not contact plants in flower while bees are present, or plants likely to flower within two days of application and be visited by bees.

COMPATIBILITY:

Grosafe Lawn Guard is compatible with both Grosafe Prickle Weedkiller and Grosafe Hydrocotyle Killer. For enhanced performance use with Grosafe BioPower® Seaweed Flake to stimulate plant growth. Use with Grosafe EcoSpread® for improved rainfastness (30 minutes) and efficacy.

Approved pursuant to HSNO Act 1996, No HSR000371
