

SCYTHE® GARDEN

NON SELECTIVE WEEDKILLER

Controls a wide range of
broadleaf and grass weeds.
Biodegradable - no soil residues.

200ml

GSSY484/F01

PEEL HERE

SCYTHER® GARDEN 200ml

ACTIVE INGREDIENT: Contains 200 g/l glufosinate ammonium in the form of a soluble concentrate.

GENERAL INFORMATION: **Scythe® Garden** controls a wide range of broadleaf and grass weeds including couch, kikuyu, paspalum, thistles and ryegrass. **Scythe® Garden** is absorbed by the foliage and green stems of actively growing plants. Visual effects of treatment will become evident more rapidly under ideal growing conditions: generally within 3 - 10 days. Rainfall within 2 hours of application may wash **Scythe® Garden** off the foliage, and within 6 hours will reduce effectiveness so re-treatment may be necessary. Do not spray in temperatures below 10°C. Do not mow or cultivate after treatment until the weeds start to die. **Scythe® Garden** has no soil activity and can be used for spot treatment of weeds in rockeries, paths, garden beds, lawns and around buildings.

DIRECTIONS FOR USE: Use 10ml per 1 litre of water. Pour the measured quantity of **Scythe® Garden** into a sprayer half filled with water, mix well. Add **Grosafe EcoSpread®** for improved results. Fill sprayer to final volume. Spray all leaves allowing good coverage. For best results apply **Scythe® Garden** to healthy, actively growing plants. Avoid contact with desirable plants; if accidentally sprayed, hose off immediately with plenty of water to reduce plant damage. Do not spray when windy.

Do not use on or around food and feed crops.

DANGER. KEEP OUT OF REACH OF CHILDREN

HAZARD CLASSIFICATIONS: Eye irritation Category 2, Reproductive toxicity Category 2, Specific target organ toxicity (repeated exposure) Category 1, Hazardous to soil organisms, Hazardous to terrestrial vertebrates, Hazardous to the aquatic environment chronic Category 3.

DANGER: Causes target organ damage from repeated oral doses at high rates. Causes serious eye irritation. May cause reproductive/development damage from repeated doses.

ECOTOXICITY: Harmful to aquatic life with long-lasting effects. Harmful to soil organisms and to terrestrial vertebrates.

Do not apply directly into or onto water. Take all reasonable steps to ensure that the product does not cause any adverse effects to the environment beyond the application area.

PERSONAL PROTECTION: When mixing or loading wear overalls, impervious gloves and eye/ face protection. Wash hands and exposed skin after work. Wash personal protection clothing and equipment before re-use.

STORAGE: Store in original container tightly closed and in a locked, dry, cool, well ventilated area, away from foodstuffs, fertiliser and seeds. Storage should be in accordance with current version of NZS 8409 Management of Agrichemicals. When stored appropriately this product should show no significant degradation for 2 years from the date of manufacture. Contact the proprietor for further information about the use of this product if it is older than this.

SPILLS: When dealing with spills wear personal protective clothing and equipment as described in the PERSONAL PROTECTION section. Contain spilled material, absorb with sawdust or inert material and place in properly labeled, sealed drums for safe disposal. If spray mixture is spilt absorb and collect in drums as above. Deal with all spillages immediately. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.

DISPOSAL: Avoid contamination of any water supply with product or empty container.

PRODUCT DISPOSAL: If possible dispose of by using according to the label, otherwise dispose of in an approved landfill or bury below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots.

CONTAINER DISPOSAL: Triple rinse container and add residue to mixture. Recycle containers if possible, otherwise crush and bury in an approved land fill.

SAFETY DATA SHEET: A safety data sheet is available from Grosafe Chemicals Ltd.

FIRST AID: If exposed or concerned, get medical advice. For advice call a doctor or the National Poisons Centre (0800 764 766) If swallowed do NOT induce vomiting. Rinse mouth. Get medical advice if feeling unwell. If in eyes, immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do after the first few minutes and continue rinsing. If on skin, wash with plenty of soap and water. Get medical attention if eye or skin irritation persists.
