KIWI SHEEN CP  
NET CONTENTS: 20 Litres

**Grosafe®**

# KIWI SHEEN CP

**HAZARD CLASSIFICATION:** Corrosive to metals Category 1.  
Skin corrosion Category 1C. Serious eye damage Category 1.  
Hazardous to the aquatic environment chronic Category 4.  
Hazardous to terrestrial vertebrates

**DANGER:** Causes severe skin burns and serious eye damage.

**ECOTOXIC:** Harmful to terrestrial vertebrates.

**PERSONAL PROTECTION:** Do not breath vapours or spray. When mixing or loading wear overalls, impervious gloves and eye/face protection. Wash hands and exposed skin after handling.

**STORAGE:** Store in original container tightly closed and in a locked, dry, cool, well ventilated area, away from foodstuffs. When stored appropriately this product should show no significant degradation for 2 years from the date of manufacture. Contact the proprietor for further information about the use of this product if it is older than this.

**SPILLS AND DISPOSAL:** When dealing with spills wear personal protective clothing and equipment as described in the PERSONAL PROTECTION section. Avoid release to environment. Contain and absorb with suitable inert absorbent material and store in properly labelled, sealed drums for safe disposal. If spray mixture is spilled absorb and collect in drums as above. Deal with all spillages immediately. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.

**PRODUCT DISPOSAL:** If possible dispose of by using according to the label, otherwise dispose of in an approved landfill or bury below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots.

**CONTAINER DISPOSAL:** Triple rinse container and add residue to mixture. Empty containers should be taken to an Agrecovery collection site for recycling by the Agrecovery Rural Recycling Programme.

**SAFETY DATA SHEET:** A safety data sheet is available from Grosafe Chemicals Ltd.

**FIRST AID:** If medical advice is needed, have product container or label at hand. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor. If swallowed, rinse mouth. Do NOT induce vomiting. Immediately call a poison centre or doctor. If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call the POISON CENTRE or doctor for advice. If on skin, remove contaminated clothing immediately and rinse skin with water. Immediately call the POISON CENTRE or doctor for advice. Wash contaminated clothing before reuse. In case of inhalation of spray remove to fresh air and keep at rest in position comfortable for breathing. Immediately call the POISON CENTRE or doctor for advice.

## GENERAL INFORMATION

Care should be taken to clean spray tank before and after applying KIWI SHEEN CP. Any sludge residue in the tank could be dissolved by KIWI SHEEN CP causing deposits on the fruit. Flushing the tank out after use is advisable to minimise corrosion to the spray tank and pump by acid solution.

**RECOMMENDED USES: KIWI/FRUIT:** For the removal of water stain. KIWI SHEEN CP improves fruit colour and appearance at the time of grading and assists in reducing packhouse rejects.

**APPLICATION RATE:** Mix 500ml of KIWI SHEEN CP per 100 litres of clean water (15 litres per 3000 litres of water) and apply as a dilute spray. Full coverage is essential for good results. A spray volume of 3000 litres per hectare of mature canopy is recommended 1–3 days before harvest. Total spray coverage of the fruit is essential for good results. Two passes of 1500 litres/ha from opposite directions will achieve best results. For heavy staining and/or dense canopy use a higher application rate of 4000 litres/ha (ie, 20 litres in 4000 litres water/ha applied in two spray runs).

**WETTING AGENT:** KIWI SHEEN CP is formulated with adequate surfactant - no additional wetting agent is required.

**RAINFALL:** Delay application if rainfall is imminent. Optimum results are obtained only when applied to dry kiwifruit.

Approved pursuant to HSNO Act 1996, Approval code: HSR 002526 - Cleaning Products (corrosive) Group Standard 2020. See [www.epa.govt.nz](http://www.epa.govt.nz) for approval conditions.

**WARRANTY:** This formulation is warranted to contain the specified active ingredient within accepted analytical tolerance. The use of KIWI SHEEN CP, being beyond the control of the suppliers, no warranty expressed or implied is given by Grosafe Chemicals Limited regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Grosafe Chemicals Limited accepts no responsibility whatsoever resulting from the use of this product.
