

# Grosafe Garden

## Trusted New Zealand Brand

Winter cleanup, the foundation to a successful growing season

Grosafe has a range of Copper Hydroxides: **FreeFlo® Copper Fruit and Veggies** for food crops and **FreeFlo® Copper** for your ornamentals and roses.

- Superior bioavailability giving better protection from fungal and bacterial pathogens.
- Superior efficacy, rainfastness and persistence due to fine particle size.

### InocBloc® Prune'n'Paste

Grosafe has the only organic BioGro registered pruning paste on the market.

Made from pine tar, the most effective wound protectant.

- Easy to apply and see on plants.
- No disease resistance issues.

**EnSpray 99®** spraying oil should be applied at least 7 days later.

- Help control insect pests that hibernate over the winter months.
- To kill any insect pests hatching from surviving eggs, spray again in early spring, as roses burst their buds.

All products are BioGro certified organic
