

**HAZARD CLASSIFICATION:** Skin corrosion Category 1C; Serious eye damage Category 1; Specific target organ toxicity – single exposure Category 3.

**WARNING:** Causes severe skin burns and eye damage. May cause respiratory irritation. **PERSONAL PROTECTION:** When mixing or loading wear overalls, impervious gloves and eye/ face protection. Wash hands and exposed skin after work.

**STORAGE:** Store locked up in original container tightly closed and in a locked, dry, cool, well ventilated area, away from foodstuffs. When stored appropriately this product should show no significant degradation for 5 years from the date of manufacture.

**SPILLS AND DISPOSAL:** When dealing with spills wear personal protective clothing and equipment as described in the PERSONAL PROTECTION section. Contain and absorb with suitable inert absorbent material and store in properly labelled, sealed drums for safe disposal. If spray mixture is spilled absorb and collect in drums as above. Deal with all spillages immediately. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.

**PRODUCT DISPOSAL:** Dispose of this product only by using according to the label, or through a Chemical Recovery service or other licensed hazardous waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse empty container and add rinsate to spray tank. Submit clean empty container to an Agrecovery® depot for recycling. Alternatively, puncture and dispose of at an approved landfill.

**SAFETY DATA SHEET:** A safety data sheet is available from Sipcarn New Zealand Ltd.

**FIRST AID:**

For advice, or if you feel unwell, call NATIONAL POISONS CENTRE

(0800 POISON) for advice. Have product container or label at hand. IF SWALLOWED:

Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTRE or doctor.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water (or shower). Wash contaminated clothing before reuse. Immediately call a

POISON CENTRE or doctor. IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a

POISON CENTRE or doctor. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTRE or doctor.

Approved pursuant to HSN0 Act 1996,  
Approval Code: (Group Standard) HSR002491  
See [www.epa.govt.nz](http://www.epa.govt.nz) for approval conditions

**NOTICE TO BUYER:** This product must be used in accordance with the directions for use. Other than warranted by New Zealand consumer protection law, Sipcarn's liability for any direct, indirect or consequential loss which you incur, including, without limitation, loss or damage to crop, loss of equipment, property damage, personal injury or death is limited, at Sipcarn's option, to the replacement of the product or the supply of an equivalent product. By opening this package, you agree to be bound by these terms. If you do not agree to these terms, please return the entire unopened package intact to Sipcarn or the place in which you purchased this product for a full refund.

# Hybrid<sup>®</sup>

## SB

A multifunctional non-ionic wetting and buffering adjuvant specially formulated to enhance performance of pesticides, plant growth regulators and foliar fertilisers. Drift control agent.

Contains: 560 g/L alkylbenzene ether sulfonate solution,  
560 g/L hydroxypropanetricarboxylate as a soluble solution.

**DANGER**

Keep out of reach of children

**GENERAL INFORMATION:**

- Reduces droplet surface tension for better coverage of plant surfaces
- Helps control drift when used in combination with other tools and mitigating factors
- Reduces the tendency for spray deposits to wash off due to rainfall, heavy dews or irrigation water
- Aids solubility and uptake of micronutrients and soluble fertilisers
- Improves compatibility of pesticide combinations
- Improves reliability of pesticides, fertilisers and micronutrients in basic or alkaline water
- Controls hydrolysis of pesticides by maintaining optimum pH
- Does not contain petroleum or vegetable based oils
- Is a low volatile, non-flammable product that is safe on crops and not hazardous to the environment

**DIRECTIONS FOR USE:**

For use with products for Agricultural, Horticultural, Forestry, Industrial, Municipal, Non-Cropland, Ornamental, Rights-Of-Way, Turf, Aquatic and Other Uses.

**CAUTION:**

The addition of an adjuvant to some pesticide or pesticide tank mixes may cause phytotoxicity to the foliage and/or fruit of susceptible crops. Prior to the addition of HYBRID SB to spray tank mixes and prior to the application of HYBRID SB with a pesticide and/or fertiliser, the user must have experience with the combination under similar environmental and crop cultural conditions.

**APPLICATION:**

HYBRID SB may be applied by conventional, ULV or CDA spray equipment via ground or aerial methods.

**RATES:**

For general use add Hybrid SB at 25 - 50 ml/100 litres of water. In most applications, use sufficient HYBRID SB to allow for uniform wetting and deposition of spray onto leaf surfaces without undue runoff. For buffering add until appearance of pink colour occurs in spray mix.

**NOTE:**

Optimum application and results are influenced by the crop, pest, spray equipment, spray volume, pressure, droplet size, spray mixture and environmental factors. Therefore, careful observations of the spray deposition should be made and adjuvant concentrations adjusted accordingly.
