

OceanFert

OceanFert[®] Granular Seaweed Fertiliser

An organic seaweed fertiliser derived from fresh, *Ascophyllum nodosum*.

For use in all horticultural and vegetable crops, ornamentals, nurseries, lawns and turf as a slow release fertiliser and naturally derived soil conditioner to support plant growth, increase crop yield and quality, and support plants against abiotic and biotic stress.

SLOW RELEASE FERTILISER

oceanFert

Granular Seaweed Fertiliser

OceanFert is derived from fresh *Ascophyllum nodosum*, sustainably harvested from the North Atlantic Ocean. It is a natural storehouse of major and minor nutrients, carbohydrates, amino acids and naturally occurring growth supporters.

OceanFert is manufactured by converting the fresh, raw seaweed into a fertiliser granule using a patented fermentation process and mechanical granulation.

OceanFert is a slow release fertiliser. Soil micro-organisms breakdown and decompose the solid granules over a long period of time, slowly releasing nutrients and compounds as the growing plants require them.

OceanFert is a naturally derived soil conditioner. It will increase soil organic matter, improve soil physical structure and enhance fungal and bacterial activity in the soil.

Plant and soil benefits from consistent use:

- Improves growth, yield and quality of crops.
- Improves availability and composition of major and minor nutrients.
- Promotes greater root growth and development.
- Increases vigour and resilience to biotic and abiotic stress.
- Enhances soil microbial activity in the soil.
- Improves soil pH, texture, aeration and drainage.
- **OceanFert** is meant to be used as part of your conventional fertiliser program and is certified for use on organic crops. Final recommendations should be based on soil tests and soil specific conditions.

Storage: Store under dry conditions and away from direct sunlight. Store in the original packaging, and do not mix with other fertiliser products while storing the product as this could affect shelf stability.

Packaging Disposal: Completely empty packaging removing all residue. Recycle woven bag via Agrecovery (www.agrecovery.co.nz).

Compatibility: **OceanFert** is compatible with all conventional and organic fertilisers.

Crop safety: **OceanFert** is safe to apply to all crops, at all development stages. It can be mixed with seedlings directly, without burning roots.

DIRECTIONS FOR USE:

Use higher application rates for low organic matter and low pH soils.

TIMING	APPLICATION METHOD	RATES	COMMENTS
Fruit trees & vines			
At planting	Plant hole	0.5 - 1 kg/tree	
Established	Top / side dressing	2 - 5 kg/tree 300 - 600 kg/ha	Apply once in spring and again in autumn. Target tree drip line.
Vegetables - field			
Pre-plant	Broadcast	300 - 600 kg/ha	Apply 10 - 14 days prior to planting. Apply before a rainfall event or irrigate to assist with granule breakdown prior to planting.
At planting	Plant furrow side dressing	150 - 250 kg/ha	
Established	Top / side dressing	150 - 250 kg/ha	Time applications for flowering, or for leafy vegetables (e.g. lettuces) 30 days after planting.
Vegetables & ornamentals Greenhouse / under structure / potted			
Pre-plant	Beds - broadcast Potted plants - top dressing	100 - 300 g/m ² 20 - 40 g/litre of soil	Apply 10 - 14 days prior to planting. Water in to assist with granule breakdown prior to planting.
At planting	Plant hole	200 - 500 g/plant hole	
Flowering & established	Beds - broadcast Potted plants - top dressing	100 - 300 g/m ² 20 - 40 g/litre of soil	
Notes: Pot size: 1L - 15cm diameter pot, 2L - 18cm, 3L - 21cm, 5L - 24cm			
Lawn & turf			
Pre-plant	Broadcast	60 - 120 g/m ²	Water in following application.
At planting	Broadcast	60 - 120 g/m ²	Water in following application.
Maintenance	Broadcast	60 - 120 g/m ²	Apply late winter, early spring.

NOTICE TO BUYER: This product must be used in accordance with the directions for use. Other than warranted by New Zealand consumer protection law, Sipcams liability for any direct, indirect or consequential loss which you incur, including, without limitation, loss or damage to crop, loss of equipment, property damage, personal injury or death is limited, at Sipcams option, to the replacement of the product or the supply of an equivalent product. By opening this package, you agree to be bound by these terms. If you do not agree to these terms, please return the entire unopened package intact to Sipcams or the place in which you purchased this product for a full refund.
