

SAFETY DATA SHEET

ZONDA® STUMP GEL

SECTION 1: IDENTIFICATION OF THE SUBSTANCE AND COMPANY

1.1 Identifiers

Product name: **ZONDA STUMP GEL**
Other Name(s): Non-Selective Herbicide Gel containing Picloram potassium salt

1.2 Recommended use of the chemical and restrictions on use

Product Use: Herbicidal Gel for direct application onto stumps and cut stems

1.3 Supplier contact details:

Company name: Sipcarn New Zealand Limited
Address: 20 Jean Batten Drive Mt Maunganui, 3116
Telephone: 0800 220 002
Email: info@grosafe.co.nz

EMERGENCY PHONE NUMBER: 0800 CHEMCALL (0800 243 622)

SECTION 2: HAZARD IDENTIFICATION

2.1 Classification of the Hazardous Chemical

Hazardous substance according to Hazardous Substances and New Organisms (HSNO) Act 1996 and the Hazardous Substances (Hazard Classification) Notice 2020.

HSNO Substance Approval: HSR101073

Classifications: Skin Sensitisation Category 1; Hazardous to soil organisms.

2.2 Label elements:

Pictograms:

Signal Word: WARNING

Hazard statements:

H317 May cause an allergic skin reaction
H422 Toxic to the soil environment

Additional labelling statements required under Hazardous Substances (Labelling) Notice 2017 (EPA Consolidation 30 April 2021)

Keep out of reach of children

If medical advice is needed, have the product container or label at hand.

Take all reasonable steps to ensure that the substance does not cause any significant adverse effects to the environment beyond the application area.

Do not apply directly into or onto waterways.

Precautionary statements:

Prevention

- P103 Read label before use.
P261 Avoid breathing vapours
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves

Response

- P302+P353 IF ON SKIN: Wash with plenty of soap and water.
P321 Specific treatment – see first aid instructions on the label
P333+P313 If skin irritation occurs: Get medical advice / attention
P363 Wash contaminated clothing before reuse
P391 Collect spillage.

Storage

Disposal

- P501 Dispose of contents/container in accordance with local regulations.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients	CAS	Proportion % w/w
Picloram- potassium salt	2545-60-0	4.0-6.0
Other non – hazardous ingredients	Proprietary	balance

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

General Information:

For advice contact 0800 CHEMCALL (0800 243622). Have label or Safety Data Sheet at hand.

Ingestion: If swallowed, rinse mouth with water. Do not induce vomiting. Call the NATIONAL POISONS CENTRE or doctor for advice if concerned or person feels unwell.

Skin Contact: Remove contaminated clothing and wash skin with plenty of soap and water. Get medical advice if irritation persists.

Eye Contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention if irritation persists.

Inhalation: Remove person to fresh air and keep at rest in a position comfortable for breathing. Call the NATIONAL POISONS CENTRE or doctor for advice if concerned or person feels unwell.

4.2 Symptoms caused by exposure

May cause an allergic skin reaction

4.3 Medical attention and special treatment

Treat symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

5.1 Suitable extinguishing media

Use water spray or fog, foam, CO₂ or dry chemical as appropriate for surrounding materials. Contain extinguishing media to prevent runoff into drains, sewers, waterways.

Addition of water may cause excessive foaming.

5.2 Specific hazards arising from the chemical

Fire decomposition products may be toxic/harmful and/or irritating if inhaled.

Vapours may be toxic – use of self-contained breathing apparatus may be required.

Evacuate people to safe area upwind of fire.

5.3 Special protective equipment and precautions for fire fighters

Wear full personal protective equipment including with self-contained breathing apparatus (SCBA).

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Have this SDS available. In the event of a spill, wear appropriate protective clothing and eye/hand protection. Wash contaminated personal protective equipment and clothing and dry before re-use.

Spills may be slippery and should be cleaned up immediately.

6.2 Environmental precautions

Prevent spillage from entering drains or waterways. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.

6.3 Methods and materials for containment and cleaning up

Contain spilled material. For small spills, use absorbent material such as sand, soil, vermiculite and recover into labelled drums that can be sealed for safe disposal. For large spills, recover into labelled containers then absorb remaining gel and transfer to drums for disposal. Clean area with water and detergent.

Dispose of contaminated materials to approved landfill in accordance with local regulations.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Read the label before use.

Do not apply directly into or onto water.

Take all reasonable steps to ensure that the substance does not cause any significant adverse effects to the environment beyond the application area

When applying product avoid inhalation of vapours. Wear protective equipment.

Wash hands and exposed skin with soap and water after handling and before rest or meal breaks.

Do not eat, drink or smoke when using.

Keep containers away from foodstuffs, seeds, fertilisers and other pesticides.

7.2 Conditions for safe storage

Store securely in the closed original packaging out of reach of children and in a dry, cool, well-ventilated area and out of direct sunlight. Keep away from sources of heat, food, drink and animal feedstuffs.

Storage of 1000 kg or more of this product requires an emergency response plan, secondary containment (and preferably also signage).

SECTION 8: EXPOSURE CONTROLS AND PERSONAL PROTECTION

8.1 Control parameters – exposure standards, biological monitoring

Ingredient	IDLH	Occupational Exposure band Rating	Occupational Exposure band Limit	TEEL-1,2,3
Picloram potassium salt	Not available	E	<0.01mg/m ³	
Zonda Stump Gel				Not available

8.2 Engineering controls

Recommended to use in well-ventilated area or outdoors.

8.3 Personal protective equipment (PPE)

The following Standards provide general advice regarding safety clothing and equipment:

Respiratory equipment: **AS/NZS 1715**, Protective Gloves: **AS 2161**,

Occupational Protective Clothing: **AS/NZS 4501**,

Industrial Eye Protection: **AS1336** and **AS/NZS 1337**,

Occupational Protective Footwear: **AS/NZS2210**.

Eye/Face Protection: Wear chemical splash goggles if eye contact with product is possible.

Skin Protection: Wear impervious chemical resistant gloves (e.g. nitrile, butyl), coveralls, socks and chemical resistant footwear. Ensure all skin areas are covered.

Respirator: Use outdoors in well-ventilated area or use local exhaust ventilation

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Clear Gel
Odour	Non-specific odour
Odour threshold	Not known
pH	7.0 – 9.0
Melting/Freezing Point	No data available
Boiling Point /Range	No data available
Flash point	Not flammable
Flammability (solid, gas)	Not applicable
Vapour Pressure	No data available
Vapour density	No data available
Specific gravity/bulk density	1.03g/ml (approx.)
Solubility	Soluble in water
Partition Co-efficient n-octanol/water	LogP = 0.15 (low) - picloram
Auto-ignition temperature	Not applicable
Decomposition temperature	No data available
Viscosity	Not applicable

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

This product is unlikely to react or decompose under normal storage conditions.

10.2 Chemical stability

Stable under normal temperatures and pressure for storage and use.

10.3 Conditions to Avoid

Avoid storage in direct sunlight, exposure to heat or contact with incompatible materials.

10.4 Incompatible materials and possible hazardous reactions

Strong acids, strong alkalis and oxidising agents such as chlorine compounds etc.

10.5 Hazardous decomposition products

Fire Decomposition: Smoke, carbon oxides and other unspecified compounds.

10.6 Polymerisation

Not known to occur.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Health hazard information

The product is classified for health hazards according to an assessment of information on product.

11.2 Toxicological information

Acute oral toxicity:	Not classified
Acute dermal toxicity:	Not classified.
Acute inhalation toxicity:	Not classified.
Skin corrosion/irritation	Not classified.
Serious eye damage/irritation	Not classified.
Respiratory or skin sensitisation	Classified as a respiratory or skin contact sensitiser.
Germ cell mutagenicity:	No ingredients identified as presumed mutagens.
Carcinogenicity	No ingredients identified as presumed mutagens
Reproductive toxicity	No ingredients identified / suspected of damaging fertility or the unborn child.
Specific target organ toxicity – single/repeated exposure	Not classified for adverse effects to organs or systems from single, prolonged or repeated oral exposure.
Narcotic effects	No ingredient identified as causing narcotic effects.

11.3 Toxicological data:

Picloram, potassium salt (Data ex PubChem)	Oral, LD ₅₀ (rat) 686mg/kg, LD ₅₀ (mouse) 1265mg/kg LD ₅₀ (rabbit) 2g/kg Inhalation, LC ₅₀ 4 h (rat) >165g/m ³
---	---

SECTION 12: ECOLOGICAL INFORMATION

12.1 Ecotoxicity

This product is classified as ecotoxic to the soil environment.

12.2 Environmental Fate

Not specified for Picloram, potassium salt

Note for Picloram

Breakdown in soil and groundwater: Biodegradable - Soil DT50 30-90days (typical).

Bioaccumulation: Not specified

Partition coefficient (octanol/water): LogP = 0.15 (low)

Soil mobility: Mobile in soil.

12.3 Ecotoxicity data:

Picloram, potassium salt

(Data ex PubChem & US EPA)

Fish: *Rainbow trout* LC₅₀ (96 hr) 10-68mg/L

Crustacea: *Daphnia spp* EC₅₀ (48 h) 68.3ppm

Alga: EC₅₀ (5D) 65ppm

Bees: LD₅₀ (48h) >1000ppm

Bird: *Chicks* LC₅₀ 10000ppm

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Product Disposal

Dispose of to an approved landfill or waste management facility in accordance with local regulations.

13.2 Container Disposal

Empty packaging should be disposed of to an approved (pesticide) recycler or crushed and sent to approved landfill. Do not use packaging for storage of other products

SECTION 14: TRANSPORT INFORMATION

Road and Rail Transport:

Not classified as Dangerous Good Class 9 according to NZS5433 Transport of Dangerous Goods on Land

Marine Transport (IMO/IMDG):

Not classified as Dangerous Good Class 9 by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport (ICAO/IATA):

Not classified as Dangerous Good Class 9 by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulation for transport by air.

UN Number:	N/A
UN Proper Shipping Name:	N/A
Transport hazard class(es)	N/A
Packing Group:	N/A
HAZCHEM:	N/A
Special Precautions for User:	N/A
IMDG Marine pollutant:	N/A
Transport in Bulk:	N/A

SECTION 15: REGULATORY INFORMATION

15.1 Hazardous Substances and New Organisms (HSNO) Act 1996

Classified as a hazardous substance according to Hazardous Substances (Hazard Classification) Notice 2020.

Approved substance number: HSR 101073

15.2 ACVM Act 1997

The product is exempt from registration under ACVM Regulations. Refer to <https://www.mpi.govt.nz/agriculture/agricultural-compounds-vet-medicines>

15.3 NZ Health and Safety at Work (Hazardous Substances) Regulations 2017

(www.worksafe.govt.nz)

Certified Handler – not required

Quantity to be secured when left unattended – no limit

Location compliance certificate – not required

Emergency Management – fire extinguishers – not required

Emergency Management – signage – not required

Emergency Management - secondary containment and emergency response plan threshold quantity – 1000kg

Tracking hazardous substances – not required

15.4 Additional Controls

The substance must not be applied onto or into waterways

Do not apply on or around food or animal feed crops or areas to be grazed by animals

SECTION 16: OTHER INFORMATION

16.1 Date of preparation or last revision of SDS

SDS issued: 19 Feb 2026

SDS supersedes: 24 May 2022

Reason issued: Update of SDS for change to Sipcam New Zealand Ltd

16.2 Abbreviations

ADI	Acceptable Daily Intakes
CAS number	Chemical Abstracts Service Registry Number
CCID	Chemical Classification Identification Database
EPA	Environmental Protection Authority
ErC₅₀	Half maximal Effective Concentration
GHS	Globally Harmonized System of Classification and Labelling of Chemicals
Hazchem Code	Emergency action code of numbers and letters that provide information to emergency services especially firefighters
HSNO	Hazardous Substances and New Organisms
HS	Health and Safety
HSR	Hazardous Substances Register
IARC	International Agency for Research on Cancer
LC₅₀	Median Lethal Concentration

LD₅₀	Median Lethal Dose
SDS	Safety Data Sheets
NOAEL	No Observable Adverse Effect Level
NOEL	No Observable Effect Level
NOS	Not otherwise specified
STEL	Short Term Exposure Limit
SWA	Safety Work Australia
TWA	Time-Weighted Average
UN Number	United Nations Number
