BUXUS BLIGHT FIGHTER

Buxus Blight Fighter is an easy to use foliar spray and soil drench providing protectant action. It is long lasting and is easily absorbed into the foliage and root system, in turn controlling, preventing and enhancing the plant's immune system. For added protection, we recommend 2-3 extra sprays of **FreeFlo® Copper** and **EnSpray 99®** 7 days after the first **Buxus Blight Fighter** treatment. This will treat fungal infestations (ie black spot, leaf spot and sooty mould) and insects (ie. aphids, scale).

DIRECTIONS FOR USE

PLANTS	PROBLEM	APPLICATION RATE	COMMENTS
Buxus, Roses and Ornamentals	Blight, dieback, phytophthora and pythium root rots	6ml/ 1 L water	Spray every 30 days during growing season (Sept - March). Ensure complete foliar coverage to point of run off.
Roses	Downy mildew	6ml/ 1 L water	Spray at signs of disease every 30 days during spring (Sept - Nov).
Buxus, Roses and Ornamentals	Transplant Stress	6ml/ 1 L water	Gently soak the soil around the roots then plant. Recommended to combine with **BioPower® Seaweed Flake** and **Organic Root-Gro®** for increased benefit during transplant.
Lawn/Turf and Succulents	Rust	6ml/ 1 L water	Apply at first signs and repeat in 4 weeks.

HAZARD CLASSIFICATION: Eye irritation Category 2, Harmful to aquatic organisms.
